EDUCATION/CERTIFICATES:

Enterprise Security - Bertelsmann/ Udacity Dec 23 - Feb 24

AWS Certified Cloud Practitioner - AWS Jan 24

React Fullstack Program - HackBright Academy June 23 - Oct 23

Full-stack Java Developer Program - Per Scholas Nov 22 - Mar 23

Chemical Engineering MSE University of Michigan (OOP C++, JAVA)

EXPERIENCE:

Hack For LA - Software Engineer Volunteer Oct 24 - Current

On both website and DevOps teams: I contribute to the open-source maintenance of the Hack for LA website. We work on automating workflow and using IaC to avoid human errors.

Student Software Engineer - React Fullstack - HackBright BrightPath June 23 - Oct 23

Using React, Redux, Node, Express, and Postgres to build full-stack applications. Worked on QA and cloud as well. Worked on 2 capstone projects, each in a 2 weeks sprint in an agile environment with daily standup. Worked on a serverless full-stack app with next13, Prisma, postgres, Zustand, and nextAuth.

Student Software Engineer - Java Full-stack PerScholas Oct 22 - March 23

15-week full-stack Java on-hand training where I built full-stack applications with Java, Spring MVC, Spring Data JPA, Spring Security, Spring Rest, and MySQL.

Fullstack Web Developer, Voyage Mentor (volunteer) Chingu Oct 22 - Nov 23

I completed an e-commerce app (MERN stack) with a team during a 6-week sprint. I volunteered to be a front-end developer(React, TypeScript) during one of the phases of a nonprofit website. I acted as a mentor/guide for one of the cohort teams during their 6-week sprint, providing technical assistance and keeping the team on track. I made sure there would be deliverables at the end of the sprint.

Graduate Student Instructor University of Michigan 2001-2004

Taught 300-400 level recitation classes, held office hours, proctored, graded exams and quizzes
